GIANTS WIN FOURTH STRAIGHT AND ARE WORLD'S CHAMPS

Mgr. Huggins Makes A
Bad Guess When He
Insists On Giving His
Pitcher All Orders.

RUTH A FAILURE

The New York Giants once more are champions of the world. They reached that pinnacle of success for the second consecutive year in a fabulous up hill rush this afternoon that flopped the Yankees to defeat 5 to 3 and crushed a disgusted pitcher, Bullet Joe Bush.

It was the second successive time that the Yankees have backed the Giants in a World Series and failed. This year they went down ingloriously without the solace of having captured even one of the five games that comprised the battle for the title. The

McGRAW, Winning Manager.

best the Yankees could do was to tie the second game of the series. The Giants won the other four.

In all the annals of the Yankee, only two clubs ever triumphed in a World Series in such a decisive fashion. In 1907 the Chicago Nationals won four straight victories from the Detroit Americans after fighting a twelve inning game tie at 3-3 in runs. Seven years later the Boston Braves surprised the fans of the entire nation by wrecking Connie Mack's superb Athletics four games in a row.

The final downfall of the Yanks was that of a house momentarily divided. Miller Huggins, the head of the household which was then enjoying a 3 to 2 lead over the Giants, differed with his Pitcher Joe Bush in his program for thwarting the onslaught of the champions in the eighth inning. Bush became angry and before he could calm himself, "Long George" Kelly had smashed one of his curves so far that one Giant reared across the plate while another trotted in with the score that beat them.

The Yankees enjoyed the prospect of a victory for only 15 minutes. When they came to bat in the 7th the score was deadlocked at 2 all. They made a run on Muesel's hit, Schang's sacrifice bunt and a wild pitch by Neft, the Giant's southpaw, and a short sacrifice to center from the bat of Everett Scott. The throw in of this fly almost caught Muesel as he slid for home. It seemed the Yankees had barely squeezed out a victory.

In the eighth, the courageous Giants flung out their challenge. Pipp, the Yank's first baseman, halted them for a moment by stopping Bancroft's hard blow back of first and leaping to the bag just in time to beat the runner. But the fighting Giants would not be denied. Groh cut the diamond squarely in half with a single that tripped along the curve into center field. Frisch hit a liner that bounced to McQuillan in center, who juggled and the batter was credited with a two bagger, while Groh went to third. Irish Muesel shot a swift bouncer that went toward short. Scott hurling the ball home so fast that Groh could not safely reach the plate. He started to return to third but was run down by Schang.

When the ball was thrown to the box, Bush found himself in trouble. Frisch, the fastest runner on either team stood on third and Irish Muesel on second. At the plate swinging his bat left handed stood Pop Young.

Youth, 19, Accused In Hall-Mills Murder Killed By Train At Grampian

POLANDER, LOADED
WITH STRONACH
BOOZE, IS VICTIM

The Pennsylvania passenger train on the Tyrone & Clearfield branch which arrived at Grampian about 8 o'clock last evening, ran over and killed a man said to have been an employee of the Pottsville Construction Company on the Curwensville-Grampian State road. The body was so badly crushed and mangled that it was impossible to identify it and so far as we are able to learn the name of the victim of the accident is yet unknown.

The dead man is said by the train crew to have been one of three men who boarded the train at Stronach. All three evidently had been drinking heavily and were intoxicated.

The men got off the train at Grampian, and, as is their custom, after unloading their passengers the train ran up to the Y a short distance above the station and turned on the Y for the trip to Tyrone in the morning. The man was run over by the train as it came down the track from the Y and it is thought he was sleeping on the track when the train struck him. His head and face were crushed to a pulp, which made identification impossible before a checkup of State road employees is made.

The train crew are alleged to have said the three men picked up Sunday evening have been making a practice of going down to Stronach Saturday afternoons and returning Sunday evening intoxicated.

Undertaker Fred B. Leavy of Clearfield was notified of the happening and had the body removed to his undertaking rooms where it was prepared for burial, and where it will be held pending identification.

County Coroner Dr. J. I. Polman made an investigation of the fatality and learned that the unfortunate man's name was John Balock, a Poland, aged about 35. The body was interred in the County Home cemetery.

WILL PROSECUTE DEALERS IN IMPURE SWEETS AND CANDY

Harrisburg, Pa., Oct. 9. (U. P.)—A State-wide crusade will be launched against the practice of selling impure candy to school children, Director James Foust of the Bureau of Foods announced today.

The determination followed a conference between Foust and Secretary of Agriculture Fred Rasmussen.

In a preliminary investigation three samples of candy secured in Somerset county, all of the variety sold to school children, were found to contain sulphur dioxide. Arrests were made in all three cases.

Secretary Rasmussen directed the Bureau of Foods to extend the investigation to every county in the State. It was found that candy containing sulphur dioxide was made up in part of fruits and special attention will be directed to these varieties.

It was believed that most of the poisonous candy was shipped in from outside the State. Agents will immediately take up the work of collecting samples of candy and these will be analyzed by the department's chemists as rapidly as possible.

THIS WEEK'S WEATHER

Washington, D. C., Oct. 9.—Weather outlook for period Monday, Oct. 9 to Saturday, Oct. 14, 1922, inclusive: Fair until latter part of week, when showers are probable. Considerably cooler first part of week, probably frost in exposed places; normal temperature thereafter.

Mr. and Mrs. Harry Mann, of Ogden avenue, are rejoicing over the arrival of a fine girl baby on Friday last. The little one was born at the home of Mrs. Mann's parents in Ogden, New York.

BRITISH SHIPPERS
INDIGNANT AT THE
DAUGHERTY RULING

London, Oct. 9.—Seven liners of the Cunard line, due to ship from here this week for America, will leave with hars well stocked and will enter New York harbor in defiance of the Daugherty ruling to make a test case. The names of these liners were withheld.

London, Oct. 9.—Atlantic shippers today held an indignation meeting at the Daugherty order promulgated last week deprecating that foreign ships could not enter New York harbor with stores of liquor. Officials of the White Star and Cunard lines were present at the meeting and various methods of meeting the Daugherty rulings were discussed. It was believed that ships would be permitted to enter the harbor with liquors under seal but threats of reprisal were openly made.

RED CROSS HOLDS BIG CONVENTION AT WASHINGTON TODAY

Washington, Oct. 9.—One of the features of the Red Cross Convention to be held in Washington, October 9, 10 and 11, will be the reception on Tuesday, October 10th, at the National headquarters for all the visiting chapter representatives.

Mrs. Calvin Coolidge, wife of the Vice President, the Ladies of the Cabinet, Mrs. William Howard Taft, wife of the Chief Justice of the Supreme Court, and Mrs. Frederick H. Gillett, wife of the Speaker of the House, have been invited to receive the guests, and the wives of the Senators to act as hostesses.

Miss Mabel T. Boardman, Secretary of the American Red Cross, and Mrs. John Allan Daugherty, Manager of the Washington Division, who are on the entertainment committee will have charge of this reception, which will offer an opportunity for the chapter representatives to become acquainted with Judge Payne and the members of the Central Committee.

This annual convention will offer opportunity for chapter delegates to hear nationally known speakers, to discuss chapter programs, and to assist in the formation of national Red Cross policies. John Barton Payne, Chairman of the National organization, will preside at the first morning session. Judge Payne has just returned from a meeting of the Board of Governors of the Red Cross Society held in Paris, and brings first hand reports of the Smyrna situation.

The delegates will be welcomed by President Harding, and after a concert by the Marine Band, there will be an address by General Pershing on "The Red Cross and its Army work."

DESPONDENT FATHER DROWNS CHILDREN AND KILLS HIMSELF

Rochester, N. Y., Oct. 9.—Edward Wheeler, 35 years old, despondent because of ill health and inability to support his family, drowned his family of three children in the bath tub then shot himself during the absence of his wife at church last evening. The children were Ethelyn, aged five, Grace, aged two, and Russell, aged six months. His wife discovered her family all dead on her return from church but was so overcome with grief that she did not report the affair to the police until midnight.

Mrs. Benjamin Sykes, of East Main street, who is seriously ill at the Clearfield hospital where she has been a patient for several days, remains in a very critical condition.

Called California's Nightingale

What's in a name? Sylvia Sonia Cornet, 18, San Francisco, has gone in for music and now she's called California's nightingale—not because a concert playing but because of her exquisite soprano voice.

FALLS CREEK WOMAN AUTO ACCIDENTS DIES FROM BURNS IN THREE PARTS OF TOWN YESTERDAY

A fatal fire occurred at Falls Creek early Sunday morning when the home of Mrs. Ella Vandivender burned to the ground and she sustained such serious burns that she died within a few hours after being taken from the burning building.

Mrs. Vandivender had been away from home and had returned to her home in Falls Creek within the last few days to pack her household goods which were to be shipped to her daughter who resides in Johnstown. All the goods had been packed and removed from the house except a bed and a stove. She had had supper with one of the neighbors and was to have remained all night at the same house, but at the last minute decided to stay in her own home. A neighbor, up in the night, saw a window and smelled smoke, began investigating and found the Vandivender home in flames.

Men in the neighborhood tried to find Mrs. Vandivender in the house but could get no reply to their calls. The fire was discovered at 2:15 and it was fully fifteen or twenty minutes later that she was heard screaming. This was the first that it was really known that she was in the neighborhood. When she was finally located under one corner of the porch, her hair was burned off and the scalp badly burned, as well as her clothing burned. How she came to be under the porch is a mystery. The inside cellar door and the outside door are close together and it was first thought that she became confused and opened the cellar door, falling into the cellar on her head, rendering her unconscious; upon regaining consciousness had crawled from the cellar in under the porch and then called for help. This theory was shattered when it was found that there was no way for her to get under the porch from the inside, as there is only one door and that is on the outside of the porch. How she came to be under the porch will no doubt remain a mystery as she was found about 2:30 and died about 7 o'clock Sunday morning, remaining unconscious to the last.

KEMELISTS WITHIN A DAY'S MARCH OF CONSTANTINOPLE

Mudania, Oct. 9.—The Kemalist legions today surged into the neutral zone at Shile and Yarmise. They are now within a day's march of Constantinople. The Allied generals and Ismail Pasha are meeting here in a renewed effort to come to terms despite the broken promises of Kemal. The latest Allied plan, the evacuation of Thrace by the Greeks, occupation of that territory for one month by the Allies, then a Turkish civil government, will be submitted today.

HONORED AT PENN STATE

The student branch at the Pennsylvania State College, of the American Society of Industrial Engineers has announced its officers for the coming year. They are: E. D. VanOrsdell, Williamsburg, President; Dri D. E. Hawk, Easton, Vice President; D. C. Flock, Clearfield, Secretary; and H. J. Robinson, Bolivar, Treasurer.

CLIFFORD HAYES WILL BE CHARGED WITH THE SLAYING

Authorities Say That He
Mistook Mrs. Mills and
Rector For Girl He
Was Jealous Of.

HOLDING WITNESS

New Brunswick, N. J., Oct. 9.—Clifford Hayes, aged 19, will be held charged with the murder of Rev. Edward Wheeler Hall, rector of the Episcopal church here and his choir leader, Mrs. Elinor Mills, whose bodies were found on the abandoned Phillips farm near here almost three weeks ago.

Hayes and Raymond Snyder, aged 22, were taken into custody last evening and both men given a severe grilling as to their whereabouts on the night of the tragedy. The examination lasted until an early hour this morning and it was rumored that Snyder declared under pressure that Hayes fired the shots which killed Rev. Hall and Mrs. Mills. After the inquiry Prosecutor Beckman would say nothing.

At noon today, however, prosecutor Beckman and Prosecutor Strickler issued a statement saying Hayes would be held as a material witness. The process against Hayes will be issued in Somerset county as the evidence indicates that the killing took place where the bodies were found.

Prior to the statement Prosecutor Beckman said Hayes had shot at the rector and Mrs. Hall believing Mrs. Hall to be Pearl Balmer, daughter of a former saloonkeeper with whom he was infatuated and who he thought was carrying on a clandestine love affair with another man.

Young Snyder and the girl, named Rose Balmer, were the couple who found the slain couple. Snyder and Hayes were chums.

William C. Chase, freshman at Dickinson College, Carlisle, Pa., spent the week-end with his father at their home on Nichols street, returning to Carlisle on Sunday.

New Air Stunt

Starting off with a rush, when Hody Johnson kicked off to the visitors' 25-yard line, Clearfield held Clarion stationary for two plays, when Howe recovered a fumble on the 35-yard line. Brown and Bobby Wilson ripped off 15 yards between them, and Quarterback "Swede" Johnson called Hody Johnson back for a drop kick. The ball went wide of the posts; Clarion's ball, 20-yard line. On the next play, Quarterback McGill tried a pass, which was touched first by "Tiny" Witherow of Clearfield, then Mortland of Normal and finally settled into Howe's arms, who legged it over the goal for a touchdown. The officials did not allow it, but gave C. H. S. the ball on Clarion's 20-yard line. "Swede" Johnson knifed thru tackle for 5 yards. Hody Johnson got 10 yards more around right flank and "Big Bill" Brown crashed thru the line for Clearfield's first score. Drop kick from scrimmage failed.

After scoring their first six points, Clearfield improved with every play and the game became a regular marathon of running the ball. Clearfield would receive, smash thru tackle 10 yards and then clip around end for mammoth gains, with the best interference seen on the local field since Harrisburg Tech played in 1920. A detailed account would require several columns.

C. H. S. TRIUMPHS OVER CLARION IN ONE SIDED GAME

Local Huskies Smash Up
Every Defense Conceiv-
ed By Normal Huskies
From All Over State.

SCORE WAS 80 TO 0

By DICK LEIPOLD.
Displaying a brand of football that even surprised the close followers of the local team, Clearfield High's grid machine swept aside the Clarion State Normal eleven and rolled up 80 points to Clarion's 0. All this happened Saturday afternoon on the local field when promptly at 3 o'clock under a steady precipitation of what the older inhabitants recognized as rain, C. H. S. teed the ball and took it deep into Clarion's territory, opening the game and Clearfield High's season.

For the second straight year, Coach W. O. Moody's pupils helped the locals pry open the football season. Last fall, as Altoona H. S.'s coach, Mr. Moody brought his bunch of huskies over to question yardage with Clearfield, losing the game by a point to C. H. S.

Glory Enough for All.
Considering that it was Clarion's second game and Clearfield's opener, too much credit and praise cannot be given the Clearfield players and coaches.

In beating Clarion 80 to 0, a high scoring record was not only made, but the normal school was handed the worst trouncing in its football history. It was not a one-man victory in any sense; every man knew his part of the work, and executed it with rhythmic precision.

The line charged low and hard, opening up great gaps in the visitors' line, while the backfield men tramped on the old speed pedal and took advantage of their stalwart line rush. Interference—clipping and all the requisites of an advanced offensive were flashed, while the fact that Clarion gained but one first down speaks well for High's defense.

C. H. S. Scores Early.

Starting off with a rush, when Hody Johnson kicked off to the visitors' 25-yard line, Clearfield held Clarion stationary for two plays, when Howe recovered a fumble on the 35-yard line. Brown and Bobby Wilson ripped off 15 yards between them, and Quarterback "Swede" Johnson called Hody Johnson back for a drop kick. The ball went wide of the posts; Clarion's ball, 20-yard line. On the next play, Quarterback McGill tried a pass, which was touched first by "Tiny" Witherow of Clearfield, then Mortland of Normal and finally settled into Howe's arms, who legged it over the goal for a touchdown. The officials did not allow it, but gave C. H. S. the ball on Clarion's 20-yard line. "Swede" Johnson knifed thru tackle for 5 yards. Hody Johnson got 10 yards more around right flank and "Big Bill" Brown crashed thru the line for Clearfield's first score. Drop kick from scrimmage failed.

After scoring their first six points, Clearfield improved with every play and the game became a regular marathon of running the ball. Clearfield would receive, smash thru tackle 10 yards and then clip around end for mammoth gains, with the best interference seen on the local field since Harrisburg Tech played in 1920. A detailed account would require several columns.

DuBois, Lad Stars for Clarion.
"Red" McGill and Doverspike were the outstanding players for the Normal eleven. McGill, who starred for several seasons past with DuBois High, was the dynamo of the little life Clarion had. This fiery-headed youth was in every play, tackling like a demon. He was ably assisted by Doverspike, a giant halfback, who was perhaps the fastest man on the field, if catching runners with a lead tells anything.

How and When Scores Were Made.
In the first quarter C. H. S. scored four times. Brown smashed thru Clarion's right side for touchdown number one. The second score came two minutes later, when Wilson

C.H.S. TRIUMPHS

Continued from Page One

skirted right end for 55 yards and placed the ball in scoring distance, Hody Johnson plunging thru right tackle for the tally. Hody Johnson caught one of Doverspike's punts on the Clarion 30-yard line, and dashing down the side line on the student bleacher side, scored his second touchdown. Excellent clipping by Ganoce enabled Johnson to score. C. H. S. 18, Clarion 0.

The Red and Black's fourth tally was lugged across by Quarterback "Swede" Johnson on an off-tackle play. Score first quarter, C. H. S. 24, C. S. N. S., 0.

On the first play of the second quarter Bobby Wilson scored thru the line for C. H. S. Brown again dove thru tackle from the 5-yard line, making Clearfield's total 36, and scored another point by running back a fumbled pass. C. H. S. 37, C. S. N. S. 0.

In the third quarter "Swede" Johnson shot a direct pass to Howe for a touchdown. C. H. S. 43. Midgret Mitchellree got loose on an off-tackle play and whirled thru for C. H. S.'s eighth touchdown. Swede Johnson received kick-off and ran it back to Clarion 18 yard line as the third quarter ended. Score C. H. S. 49, C. S. N. S. 0. Clearfield's backs tore off 12 yards and Swede carried the ball across from the 6-yard line Hody Johnson, on a brilliant run of

70 yards, scored again for C. H. S., whose total was 61. Wilson got loose for a forty yard dash down the north side of field, scoring again. C. H. S. 67, Clarion 0. A long run by Wilson, a pretty pass, Hody to Swede Johnson, enabled Swede to score; C. H. S. 73. Swede Johnson thru center for final tally, making C. H. S. final total 80.

Teamwork Did It.

In such a game, every man started, or the locals could not have attained such heights. It also brought to light the excellent system of coaching the local lads are receiving from Coaches Reed and Flegal and the rest of the staff. The Red and Black's backfield attack was versatile and vicious. Quarterback "Swede" Johnson directed the plays well, and was a consistent ground gainer thru the line. Full-back Brown was a regular war horse for smashing thru center, while Bobby Wilson and Hody Johnson's long runs thrilled Clearfield's followers.

Mitchellree's open field work was spectacular, and his fellow classman, Barney, also showed up well. The entire backfield handled the wet and slippery pigskin well, only three fumbles being credited to C. H. S.

Clearfield's line was a real wall on the defensive, and opened holes at will for High's backs. "Ham" Howe at end was a steady toiler from whistle to whistle, while Mohny and Sansone put up stellar games against heavier ends. Pearce and "Tiny" Withrow worked like Trojans at the tackle posts, smearing play after play. Coach Reed used two sets of guards, starting Moore and Ganoce, and finishing with Betts and Maines on guard duty. These four giants certainly tore things up when the ball was put in play, and show promise of developing into one of Clearfield's greatest offensive resources, as each man plays an aggressive and hard-hitting game. Captain Withrow's playing at center stood out strong for the Red and Black, whether snapping the ball or backing up the line.

How the Candidate Got Licked. He that keepeth his mouth keepeth his life, but he that openeth wide his lips shall have destruction.—Solomon

GIANTS WIN FOURTH

Continued from Page One

who usually drops his hits in right field. At this moment there popped into the mind of Miller Huggans the thought that the best play out of the difficulty would be to let Young walk, killing the bases, so that a forced out could be facilitated. He was willing to take a chance that Kelly, who had been weak in batting would continue weak. He ordered Bush to walk Young.

He warmed up his argument with a couple of warm words and then shouted to Huggans "let's play baseball." Huggans was insistent and repeated his signal to pass Young. Bush obeyed. His face showed his disgust. He threw four wide ones. Then Kelly, batting right handed, appeared at the plate. Bush's first pitch was a ball. The next was a speedy curve. It cracked off Kelly's bat, passed into center field at a fast clip, scoring Frisch and Muesel. Huggans had guessed wrong. Bush had perhaps won a moral victory but all else was lost.

Still apparently bereft of his temper, Bush lopped a lazy throw up to the plate and King killed it, but the ball fell foul. He swung easier the next time and dropped a Texas leaguer, scoring Young.

For a time this afternoon, it seemed the Yanks had awakened from the spell of dumbness in which they tossed away every opportunity. They never appeared so much awake as the Giants did, who seemed every day in every way to grow better and better. But with Bush pitching as well as he did for two thirds of the distance, a little slowness now and then did not matter much at the time.

Facing the fast breaking curves of Nehf, the Yanks, as had been their custom, worked for one run at a time while the Giants stuck to their habit of hitting the ball where the could in the hope of getting a flock of runs. The Yankees were held to five hits by Nehf.

A single by Dugan, a sacrifice by Ruth and Pipp's single gave Bush a one run start in the first. The Giants took the lead in the second getting two runs on Muesel's single. Young walks. Kelly sacrificed and a single by Cunningham. The Yanks tied the count at two all in the fifth. Ward walked and was sent around the circuit by singles hit by Scott and Bush. In the seventh the Yanks forged ahead. Muesel scratched a hit that Groh fumbled. He was sacrificed to second by Schang and given a trip to third on a wild pitch. Scott's sacrifice sent him home.

There were occasions for Babe Ruth to rise from his slump and gain heroic stature but he could not hit the

ENTERTAINED HIS RELATIVES

U. S. Consul Ben F. Chase, who has just returned home after more than a year spent in Messina, Italy, following his transfer from Norway, entertained his brothers and sisters at noon Sunday at the Dimeling and was host to his nephews and nieces at the same place for dinner last evening. Both functions were very much enjoyed by the participants.

To Keep a Window Up.

A simple and practical device for supporting windows that have no weights attached is made as follows: Take two double-pointed tacks and drive into the frame, one outside and one inside the window. Drive them in only half way. Then insert a long nail and let the window rest on the nail. The tack next to the nail head should be a little higher than the other, so the nail will not slide out and should be on the inside of the window. By having two or three sets of these tacks on a frame you can have your window raised to as many different places.

THE OLD HOME TOWN

By Stanley.

Look in the Glass. There is just one man in all the world that can do you dirt. Look in the glass and you will see him. Take a good square hold with that man. Down him, and hold him down till he promises to get up and behave himself. —Farm Life.

OYSTERS They're Here Every Day

And they're mighty good oysters. They come from the great Chesapeake Bay oyster grounds, where the finest oysters in the world are grown. You'll find that they are fat, juicy and succulent and just what you have been looking for after the long time you have been without them.

We have the big ones for frying and the smaller ones for stews. You'll find them all just what you've been looking for to tickle your palate.

THORN BROS.

The Greatest Historian of Them All

HOMER wove history into his songs. The Pharaohs carved it in stone. Julius Caesar painstakingly penned it on papyrus.

Today, history is written and given to you simultaneously with its occurrence. Every day, the important events of the world are summed up fully and comprehensively in your newspaper. You are able to keep abreast of history in its making.

And not the least important phase of modern history lies in the realm of industrial progress. You find this chronicled in the advertisements.

Advertising is a priceless boon to those who use it properly. It keeps their information up-to-date on the great variety of things that make life what it is today. It tells them of the thousand and one things they need in order to live profitable, happy and useful lives.

The consistent advertiser pays money to tell you about his wares. He **knows** they are good—he backs them with his money because he is confident that they will satisfy. For only merchandise that is consistently good can be consistently advertised.

Keep up with history. IT PAYS.

Read the advertisements.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The American Legion band appeared on the diamond Saturday evening and rendered a delightful concert. The atmosphere was heavy and murky, but nevertheless a large crowd of people lined the sidewalks and stood for over an hour listening to the number of selections rendered. The band was booked for a concert at Philipsburg Sunday afternoon, but owing to the showery condition of the weather, did not venture out on the trip.

John P. Irvin tells us that while the lumber, roofing, etc., which he is handling had not been as brisk in the selling line as it ought to be at this time of the year, yet his sales so far this year have increased over the same length of time last season.

William Lines, a Curwensville boy, who has two years more to serve in the United States navy to complete his third term, is home on a ten-day furlough. He is now serving on the Secretary of Navy's yacht, with headquarters at Washington, D. C. At the expiration of his third term of service he will be retired on a pension amounting to \$87 per month. He will pass into the navy reserves for a term of sixteen years more, and after that period of time expires will receive a pension for the balance of his life at the rate of \$125.00 per month.

Half the width of Filbert street from the Central hotel to State street has been concreted. The reason why the entire width of the street was not carried along is that the State highway will not permit the laying of over sixteen feet in width at any one time. Two days more of good weather ought to complete the street. The stretch from the Pennsylvania railroad to the creek bridge is being left to the last bit of work, for a reason which we have been unable to fathom. It will be a great relief to everybody when the entire stretch from the river bridge to State streets is thrown open for public traffic.

The Curwensville Progress representative has been informed from a good source that Guy Forecy has purchased from Raymond Sipes his dwelling house on North Pine street, into which he expects to remove his family this week. The Sipes family will move to Clearfield some time about the middle of the week.

Douglas Dunsmore, according to latest reports, is now at Grove City and is playing on the football squad. "Dug" is a whirlwind at the game and will no doubt give as good an account of himself in every contest he enters as he did in the U. S. Marine service during the world war.

The High School football boys went to Indiana Saturday and took a whirl out of the Indiana Normal footballists. They were defeated but not discouraged. The score was 38 to 0. The pork and buckheat lads were a little too experienced and weighty for the home boys, and averaged five years older in age and twenty-five pounds heavier in weight. Olson, of the home team being out of commis-

sion on account of an injury received in the Williamsport game, left a weak spot as he was the bull-bunter of the bunch. The Curwensville squad, however, put up a spirited fight under the conditions, and the fans here have no kick coming because they lost out. What Curwensville wants now is a scrub team in order to help the High School fellows along in their practice stunts, and furnish trained substitutes when one of the regulars gets knocked out in battle. The writer does not know as much about the thrills and curves of football as he does about making moonshine cough syrup, therefore does not feel competent to write up the Indiana game and do the boys justice for their good work and showing as it should be done. But will say, let us all go to the field next Saturday when the Hollidaysburg game comes off, and root for the home team for all we are worth.

The gentle showers which visited this mountain section on Saturday and at intervals up to Monday morning were not of a sufficient quantity to raise the water in the streams, but did lay the deep dust on the country roads, making auto travel a little more of a pleasure. We have been told that all pastors of churches and Christian people of this county were requested to unite in an earnest prayer on Sunday that rain might be sent to relieve the needful where the scarcity of water predominates. Curwensville people are to be congratulated in having a water supply for all domestic purposes, but at many farms in surrounding territory water is being hauled as far as five miles for house use and for stock.

Anthony Pintowski, of the firm of Kujawa & Co., Clearfield, was a Curwensville visitor over Sunday, the guest of J. A. Kujawa.

Mr. Menzel, superintendent of the Clearfield tannery, formerly superintendent of Summit tannery of this place, Sundayed at the home of Mr. and Mrs. J. W. Sykes, North Thompson street.

Mr. and Mrs. Al Maurey drove to Indiana Saturday to witness the football game and also to visit their daughter, Miss Genevieve Maurey, who is a student at Indiana Normal.

Messrs. Emory Daub, Bob Wolf, Geo. Strickland and Sidney Koth were a bunch of rooters for the Curwensville pigskinners at Indiana Saturday.

Folly in Grieving.
One class of feelings can be extinguished only by the creation of another; one sentiment banished only by inviting the antagonism of another; one interest supplanted only by the stronger occupancy of another. So long as this is unperceived the overgrieving heart will seek in vain to discipline itself. Thinking of its sorrow as too much, instead of its sense of duty as too little, it fails to meet pointedly its own remedy.—James Martineau.

Woman Has "Some" Job.
The business man who thinks he has real problems is "kidding" himself. If he doubt his, he should consult his wife about problems that really are problems—planning meals, keeping up with the fashions, and running the home to suit as many different tastes as there are members of the family.—L. B.

Knowledge.
Knowledge is like the mystic ladder in the patriarch's dream. Its base rests on the primal earth; its crest is lost in the shadowy splendor of the empyrean; while the great writers who for traditional ages have held the chain of science and philosophy, of poetry and erudition, are the angels ascending and descending the sacred scale.

"Referendum" On Education Urged By Pres. Thomas

State College Head Asks
People To Approve Plan
To Raise \$2,000,000

Dr. John N. Thomas
President, Pennsylvania State College

The "referendum" on higher education in Pennsylvania was started just a year ago by President John M. Thomas, of the Pennsylvania State College, at State College, is being presented to the people of Pennsylvania this week. Committees in the 67 counties of the state are clamoring to all Pennsylvanians the opportunity to give their endorsement to the plan to better the state's institutions of higher learning by providing, through an emergency building fund of \$2,000,000, health, welfare, and residence units for its students.

The college decided upon the novel plan of an informal referendum of its problem to the people of the state and is seeking support from all classes of persons in a campaign for more adequate public support. In a statement on the "referendum," Dr. Thomas said:

"With but a single dormitory accommodating only 150 of the 3,000 men at the college, a hospital with only one bed for every 400 students, and no physical education or social buildings for other men or women, it has been decided that direct action by the citizens of the state will most quickly remedy the immediate needs of the college.

"The Pennsylvania State College, owned by the people of the state, should be a worthy apex of the public school system in this Commonwealth. Dignified with the name of University, it should provide this state with an institution such as that possessed by every state to the west and south of us.

"At the present time the resources of Penn State are far below the standard at other institutions. The following table shows what Penn State receives from the Legislature for maintenance for a year, compared with what other states, smaller and poorer than Pennsylvania, provide for the maintenance of their universities: Pennsylvania State College, \$84,000; Ohio State University, \$192,500; University of Illinois, \$236,733; University of Wisconsin, \$251,545; University of Michigan, \$308,530; University of California, \$319,732; University of Minnesota, \$359,199.

Pectin and Gelatin.
Pectin is of vegetable origin, and is made up of carbon, hydrogen and oxygen. Gelatin is of animal origin and contains nitrogen in addition to the elements found in pectin.

CAMPAIGN IS ON TO BREAK UP CHILD RUNNING TRAFFIC

By DALE VAN EVERY
(United Press Staff Correspondent.)
Harrisburg, Pa., Oct. 9.—A campaign to break up the notorious child-running traffic over State lines was under way today with the co-operation of the child welfare authorities of seven States.

Dr. Ellen Potter, head of the Children's Bureau of the Pennsylvania Department of Public Welfare, announced today that concerted measures had been agreed upon by Pennsylvania, New York, New Jersey, Delaware, Maryland, West Virginia and Ohio to control the unregulated shipment from one State to another.

At a conference of child welfare authorities of the seven States held here exchange of data disclosed the following:

The repeated escape of boys from an Ohio home for the feeble-minded was traced to a road contractor in Western Pennsylvania. The boys were found working on a road contract.

West Virginia reported that a Pittsburgh maternity hospital was placing large numbers of illegitimate babies in homes in West Virginia of such character that the infants were certain either to become poor citizens or public charges.

Pennsylvania authorities reported that maternity homes near the New York State line were placing infants in deplorable homes in northern tier counties of Pennsylvania. Some of these homes which were investigated were discovered to be infected with lice and disease.

The general fault disclosed by the conference was a lack of appropriate legislation which would make it possible to control the situation. Legislation will be recommended in each State to enable child welfare authorities to prevent the sending of children from one State to another when they are likely to become public charges. Measures will also be taken

to secure a more adequate supervision over the nature of the private homes in which children, especially babies are placed. It placed regularly through the placement service regular inspections should check up on the treatment of the child. The secret shipment of infants over State lines makes this supervision almost impossible. At present there is no legislation adequate to prevent this bandying about of little children, Dr. Potter said.

"I CAN'T AFFORD TO DO MY OWN WASHING"

That's what the woman who helps one of our neighbors several days a week said when she was asked how she got her own washing done.

This woman found that by going out to work, and sending her washing to the laundry, she was better off financially at the end of the day than if she had stayed at home and done the washing herself.

It really costs more to have the washing done at home than to send it to us. A trial will convince you of this.

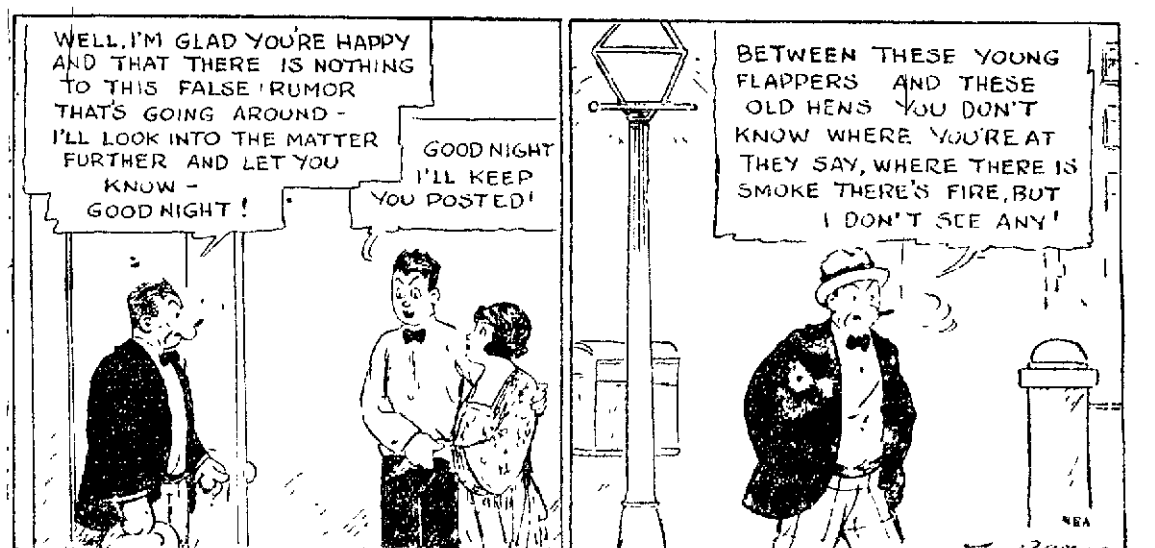

We wash your clothes, thoroughly dry them, iron the flat work, starch those pieces that need it, and leave only the more intimate personal things for you to finish at your leisure.

Phone and we'll have our representative call for your bundle. You'll find it a pleasant way out of washday.

TRINITY CHURCH EVENTS

A spirit of thanksgiving and praise marked all the gathering yesterday in Trinity church. Bible school had a fine session; new scholars were enrolled. Reports indicated fine advance over a year ago.

The music of the entire day was exceptionally strong and well interpreted. The choir gave finely rendered anthems. Mr. and Mrs. Harder singing impressively a suitable duet. Congregations listened with deepest attention to both morning and evening sermon. "Revive us again" ran through the morning message.

Our Fabrics

New Fall Fabrics present many possibilities for the woman who sews. Wools, silks and ginghams were never more attractive than this fall assortment and an opportunity is offered the needle for many unique effects in autumn clothes.

A. W. Leonardson Co.

Shur-on Glasses

Your glasses, too, should be appropriate.

You would never wear a sport suit to a formal occasion! Then why wear the same glasses for every occasion? It is the appropriateness of your glasses that gives you a becoming appearance. Rimless glasses are quite correct for formal and semi-formal engagements, but for work and play, rimmed spectacles are more practical.

We have appropriate styles for each occasion. We are equipped to fit glasses upon very short notice. Our stock of the well-known Shur-on styles contains frames and mountings that are both appropriate and comfortable; we recommend Shur-ons because we know they are right.

OUR MILK QUALITY UPHELD ALL THROUGH LONG DROUTH

Now that the drouth has been broken and the weather once more assumes its even tenor, we feel that we have achieved something in being able to tell you that all through the drouth the quality of our milk was as high as ever.

It has been a victory for our methods and has assured you the milk that came to your table was of the same high quality and had in it all the nutriment that Nature originally put there.

To drink our milk and drink plenty of it is a very good thing for you and every member of your family.

Clearfield Dairy Co.

WE MAKE WATCH REPAIRS RIGHT

There isn't a watch or a clock that goes out of our shop that goes out with the least thing the matter with it. Lots of folks have gotten the habit of dropping in and saying, "Fix up my watch" or "Fix this clock" and that's all there is to it.

In a short time they come in again and if we haven't succeeded in making the watch or clock run to our satisfaction, we say so frankly and ask the customer to wait a little longer.

One thing we must be sure of and that is that everything is all right before either leaves our repair rooms.

GIANTS WIN FOURTH STRAIGHT AND ARE WORLD'S CHAMPS

Mgr. Huggins Makes A
Bad Guess When He
Insists On Giving His
Pitcher All Orders.

RUTH A FAILURE

The New York Giants once more
are champions of the world. They
reached that pinnacle of success for
the second consecutive year in a
famous up hill rush this afternoon that
flopped the Yankees to defeat 5 to 3
and crushed a disgusted pitcher, Earl
Joe Bush.

It was the second successive time
that the Yankees have bucked the
Giants in a World Series and failed.
This year they went down ingloriously
without the solace of having cap-
tured even one of the five games that
comprised the battle for the title. The

McGRAW, Winning Manager

best the Yankees could do was to tie
the second game of the series. The
Giants won the other four.

In all the annals of the Yankee
series in such a decisive fashion. In
1907 the Chicago Nationals won four
straight victories from the Detroit
Americans after fighting a twelve
inning game tie at 3 in runs. Seven
years later the Boston Braves sur-
prised the fans of the entire nation
by wrecking Connie Mack's superb
Athletics four games in a row.

The final downfall of the Yanks
was that of a house momentarily di-
vided. Miller Huggins, the head of
the household which was then enjoy-
ing a 3 to 2 lead over the Giants, dif-
fered with his pitcher Joe Bush in
his program for thwarting the on-
slaught of the champions in the eighth
inning. Bush became angry and be-
fore he could calm himself "George
George" Kelly had smashed one of
his curves so far that one Giant reared
across the plate with the run that
tied the score while another flitted
in with the score that beat them.

The Yankees enjoyed the prospect
of a victory for only 15 minutes.
When they came to bat in the 7th the
score was deadlocked at 2 all. They
made a run on Meusel's hit Schang's
sacrifice bunt and a wild pitch by
Nehrt, the Giant's southpaw, and a
short sacrifice to center from the bat
of Everett Scott. The throw in of
this fly almost caught Meusel as he
slid for home. It seemed the Yankees
had barely squeezed out a victory.

In the eighth, the courageous
Giants flung out their challenge. Pipp
the Yank's first baseman halted them
for a moment by stopping Bancroft's
hard blow back of first and leaping
to the bag just in time to beat the
runner. But the fighting Giants would
not be denied. Groh cut the diamond
squarely in half with a single that
tripped along the curve into center
field. Frisch hit a line that bounced
to McQuillan in center who muffed
and the batter was credited with a
two bagger while Groh went to third.
Frisch shot a swift founder
that went toward short. Scott hitting
the ball home so fast that Groh could
not safely reach the plate. He went
to return to third but was run down
by Schang.

When the ball was thrown to the
box, Bush found himself in trouble.
Frisch, the fastest runner on either
team stood at third and Irish Muehl
on second. At the plate swinging
this bat left handed stood Pip Young.

Youth, 19, Accused In Hall-Mills Murder Killed By Train At Grampian

POLANDER, LOADED
WITH STRONACH
BOOZE, IS VICTIM

BRITISH SHIPPERS
INDIGNANT AT THE
DAUGHERTY RULING

Called California's Nightingale

What's in a name? Sylvia Sonia Conant, 18, San Francisco, has gone in for music and now she's called California's Nightingale—not because she can't sing but because of her exquisite soprano voice.

The Pennsylvania passenger train
on the Tyrone & Clearfield branch
which arrived at Grampian about 8
o'clock last evening, ran over and
killed a man said to have been an
employee of the Pittsburgh Construc-
tion Company on the Curwenville
Grampian State road. The body was
so badly crushed and mangled that
it was impossible to identify it and
so far as we are able to learn the
name of the victim of the accident is
yet unknown.

The dead man is said by the train
crew to have been one of three men
who boarded the train at Storion.
All three evidently had been drinking
heavily and were intoxicated.

The men got off the train at Grampian,
and, as is their custom, after
unloading their passengers, the train
men up to the Y. & C. hotel, where
above the station and turned on the
Y. & C. for the trip to Tyrone in the morn-
ing. The man was run over by the
train as it came down the track from
the Y. & C. It is thought he was sleep-
ing on the track when the train
struck him. His head and face were
crushed to a pulp, which made iden-
tification impossible before a checkup
of State road employees is made.

The train crew are alleged to have
said the three men picked up Sunday
evening have been making a practice
of going down to Stronach Saturday
afternoon and returning Sunday
evening intoxicated.

Undertaker Fred B. Leavy of
Clearfield was notified of the hap-
ping and had the body removed to
his undertaking to insure where it was
permitted for burial, and where it will
be held pending identification.

County Coroner Dr. J. I. Polander
made an investigation of the fatality
and learned that the unfortunate
man's name was John Balock, a Pri-
vater, aged about 35. The body was
interred in the County Home ceme-
tery.

WILL PROSECUTE DEALERS IN IMPURE SWEETS AND CANDY

Harrisburg, Pa., Oct. 9 (U. P.)—
A state wide crusade will be launched
against the practice of selling im-
pure candy to school children, Director
James Foust of the Bureau of
Foods, announced today.

The determination followed a con-
ference between Foust and Secretary
of Agriculture Fred Rasmussen.
In a preliminary investigation three
samples of candy secured in Somers-
et county, all of the variety sold to
school children, were found to con-
tain sulphur dioxide. Arrests were
made in all three cases.

Secretary Rasmussen directed the
Bureau of Foods to extend the inves-
tigation to every county in the State.
It was found that candy containing
sulphur dioxide was made up in part
of fruits and special attention will be
directed to the quantities.

It was believed that most of the pos-
sonous candy was shipped in from
outside the State. Agents will im-
mediately take up the work of col-
lecting samples of candy and these
will be analyzed by the laboratory
chemists as rapidly as possible.

THIS WEEK'S WEATHER

Washington, D. C., Oct. 9.—(Weath-
er outlook for period Monday Oct. 9
to Saturday Oct. 14, 1922 inclusive.)
In mid-latter part of week, when
showers are probable. Considerably
cooler first part of week, probably
frost in exceptional places, normal tem-
peratures thereafter.

Mr. and Mrs. Harry Mann of Og-
den, Iowa, are expecting the arrival
of a new girl baby on Friday
last. The little one was born at the
home of Mrs. Mann's parents in
Ogden, New York.

London, Oct. 9.—Seven liners
of the Cunard line, which ship
from here this week for America,
will leave with but a full
stocked and will enter New
York harbor in defiance of the
Daugherty ruling to make a
test run. The names of these
liners were withheld.

London, Oct. 9.—Atlantic shippers
today held an important meeting at
the Daugherty office, promulgated
last week declaring that foreign ship-
ping could not enter New York harbor
because of liquor. Officers of the
White Star and Cunard lines were
present at the meeting, and various
methods of meeting the Daugherty
ruling were discussed. It was de-
cided that ship would be permitted
to enter the harbor with liquor and
be sold out through the regular
openly.

RED CROSS HOLDS BIG CONVENTION AT WASHINGTON TODAY

Washington, Oct. 9.—One of the
features of the Red Cross Convention
to be held in Washington, Oct. 9, 10,
11 and 12, will be the reception
Tuesday, October 10th, if the Na-
tional headquarters for all the Na-
tional chapter representatives.

Mrs. Calvin C. Dodge, wife of the
Vice President of the United States, will
be the guest of honor. Mr. William Howard Taft
will be the Chief Guest of the Convention.
The Convention will be held at the
Hotel Mayflower.

Mr. Mabel L. Burman, Secretary
of the American Red Cross, and Mr.
John Allen Daugherty, Manager
of the Washington Division, will be
the chief executives of the convention.
The convention will be held at the
Hotel Mayflower.

This annual convention will offer
opportunities for chapter delegates to
hear national and international
discussions, chapter reports, and to
assist in the formation of new and
existing chapters. The convention will
offer an opportunity for the chapter
representatives to be in contact with
Judge Payne, the manager of the
convention.

DESPONDENT FATHER DROWNS CHILDREN AND KILLS HIMSELF

Rochester, N. Y., Oct. 9.—Edwina
Wheeler, 25 years old, despondent be-
cause of ill health and inability to
support his family, drowned his three
children in the bathtub. The body
of his wife at church last evening.
The children were 11 years old, 10
years old, and 8 years old. The
father, aged 42, and his wife, aged
36, were discovered by a neighbor
family all dead on her return from
church but was so overcome with
grief that she did not report the
fact to the police until this morning.

Mrs. Benjamin S. of I. V. S.
died at her home in Clearfield
last night. She was 82 years old.
She had been ill for some time.
The funeral will be held at 10
o'clock this morning.

FALLS CREEK WOMAN AUTO ACCIDENTS DIES FROM BURNS WHEN HOME FIRES

An auto accident at Falls Creek
last Sunday morning, when the
body of Mrs. Ella Vandiver
was found in the ground and she was
dead, was the result of a fire which
started in her home after she
had been burned in a fire.

Mrs. Vandiver had been away
from home for some time and had
returned to her home at Falls Creek
last Sunday morning. She had been
burned in a fire which started in
her home after she had been burned
in a fire. She was found in the
ground and was dead.

The fire started in the kitchen
and spread to the living room and
the bedroom. The fire was
extinguished by the neighbors. The
body of Mrs. Vandiver was found
in the ground and was dead.

KEMELISTS WITHIN A DAY'S MARCH OF CONSTANTINOPLE

Mudras, Oct. 9.—The Kemal-
ists today surged into the neutral
zone at Shile and Yuzum. They are
now within a day's march of
Constantinople. The Allied generals
and British are meeting here in a
desperate effort to come to terms
despite the broken promises of Kemal.
The latest Allied plan, the evacu-
ation of Thrace by the Greeks, occu-
pation of that territory for one month
by the Allies, then a Turkish civil
government, will be submitted today.

HONORED AT PENN STATE
The student branch of the American
Society of Industrial Engineers has
announced its officers for the coming
year. They are: F. D. VanOrsdell,
Williamsburg, President; D. I. I.
Hawk, Easton, Vice President; D. C.
Hed, Clearfield, Secretary; and H.
J. Johnson, Bala, Treasurer.

CLIFFORD HAYES WILL BE CHARGED WITH THE SLAYING

Authorities Say That He
Mistook Mrs. Mills and
Rector For Girl He
Was Jealous Of.

HOLDING WITNESS

New Brunswick, N. J., Oct. 9.—
Clifford Hayes, aged 19, will be held
charged with the murder of Rev. Ed-
ward Wheeler Hall, rector of the
Episcopal church here and his choir
leader, Mrs. Elmer Mills, whose bod-
ies were found on the abandoned Phil-
lips farm near here almost three
weeks ago.

Hayes and Raymond Snyder, aged
22, were taken into custody last eve-
ning and both men given a severe
gouging as to their whereabouts on
the night of the tragedy. The exam-
ination lasted until an early hour this
morning and it was rumored that
Snyder declared under pressure that
Hayes fired the shots which killed
Rev. Hall and Mrs. Mills. After the
inquiry Prosecutor Beekman would
say nothing.

At noon today, however, prosecu-
tor Beekman and Prosecutor Strickler
issued a statement saying Hayes
would be held as a material witness.
The process against Hayes will be
issued in Somerset county as the evi-
dence indicates that the killing took
place where the bodies were found.

Prior to the statement, Prosecutor
Beekman said Hayes had shot at the
rector and Mrs. Hall believing Mrs.
Hall to be Pearl Balmer, daughter of
a former saloonkeeper with whom he
was infatuated and who he thought
was carrying on a clandestine love
affair with another man.

Young Snyder and the girl, named
Rose Balmer, were the couple who
found the slain couple. Snyder and
Hayes were chums.

William C. Chase, freshman at
Dickinson College, Carlisle, Pa., spent
the weekend with his father at their
home on Nichols street, returning to
Carlisle on Sunday.

New Air Stunt

Starting off with a rush, when
Hody Johnson kicked off to the visit-
ors' 25-yard line, Clearfield held
Clarion stationary for two plays, when
Howe recovered a fumble on the 35-
yard line. Brown and Bobby Wilson
ripped off 15 yards between them,
and Quarterback "Swede" Johnson
called Hody Johnson back for a drop
kick. The ball went wide of the
posts; Clarion's ball, 20-yard line. On
the next play, Quarterback McGill
tried a pass, which was touched first
by "Tiny" Withrow of Clearfield,
then Mortland of Normal and finally
settled into Howe's arms, who legged
it over the goal for a touchdown. The
officials did not allow it, but gave C.
H. S. the ball on Clarion's 20-yard
line. "Swede" Johnson knifed thru
tackle for 5 yards. Hody Johnson
got 10 yards more around right flank
and "Big Bill" Brown crashed thru
the line for Clearfield's first score.
Drop kick from scrimmage failed.

After scoring their first six points,
Clearfield improved with every play
and the game became a regular mar-
athon of running the ball. Clearfield
would receive, smash thru tackle 10
yards and then slip around end fog
mammoth gains, with the best inter-
ference seen on the local field since
Harrisburg Tech played in 1920. A
detailed account would require sever-
al columns.

DuBois, Lad Stars for Clarion.
"Red" McGill and Doverspike were
the outstanding players for the Nor-
mal eleven. McGill, who starred for
several seasons past with DuBois
High, was the dynamo of the little
life Clarion had. This fiery-headed
youth was in every play, tackling
like a demon. He was ably assisted
by Doverspike, a giant halfback, who
was perhaps the fastest man on the
field, if catching runners with a lead
tells anything.

How and When Scores Were Made.
In the first quarter C. H. S. scored
four times. Brown smashed thru
Clarion's right side for touchdown
number one. The second score came
two minutes later, when Wilson
(Continued on Page Two)

C. H. S. TRIUMPHS OVER CLARION IN ONE SIDED GAME

Local Huskies Smash Up
Every Defense Conceiv-
ed By Normal Huskies
From All Over State.

SCORE WAS 80 TO 0

By DICK LEIPOLD.
Displaying a brand of football that
even surprised the close followers of
the local team, Clearfield High's grid
machine swept aside the Clarion
State Normal eleven and rolled up 80
points to Clarion's 0. All this hap-
pened Saturday afternoon on the lo-
cal field when promptly at 3 o'clock
under a steady precipitation of what
the older inhabitants recognized as
rain, C. H. S. teed the ball and teed
it deep into Clarion's territory, open-
ing the game and Clearfield High's
season.

For the second straight year,
Coach W. O. Moody's pupils helped
the locals pry open the football sea-
son. Last fall, as Altoona H. S.'s
coach, Mr. Moody brought his bunch
of huskies over to question yardage
with Clearfield, losing the game by a
point to C. H. S.

Glory Enough for All.
Considering that it was Clarion's
second game and Clearfield's opener,
too much credit and praise cannot be
given the Clearfield players and
coaches.

In beating Clarion 80 to 0, a high
scoring record was not only made,
but the normal school was handed the
worst trouncing in its football his-
tory. It was not a one-man victory
in any sense; every man knew his
part of the work, and executed it
with rhythmic precision.

The line charged low and hard,
opening up great gaps in the visit-
ors' line, while the backfield men
tramped on the old speed pedal and
took advantage of their stalwart line
rush. Interference—dipping and all
the requisites of an advanced offen-
sive were flashed, while the fact that
Clarion gained but one first down
speaks well for High's defense.

C. H. S. Scores Early.

Starting off with a rush, when
Hody Johnson kicked off to the visit-
ors' 25-yard line, Clearfield held
Clarion stationary for two plays, when
Howe recovered a fumble on the 35-
yard line. Brown and Bobby Wilson
ripped off 15 yards between them,
and Quarterback "Swede" Johnson
called Hody Johnson back for a drop
kick. The ball went wide of the
posts; Clarion's ball, 20-yard line. On
the next play, Quarterback McGill
tried a pass, which was touched first
by "Tiny" Withrow of Clearfield,
then Mortland of Normal and finally
settled into Howe's arms, who legged

70 yards, scored again for C. H. S., whose total was 61. Wilson got loose for a forty yard dash down the north side of field, scoring again. C. H. S. 67, Clarion 0. A long run by Wilson, a pretty pass, Hody to Swede Johnson, enabled Swede to score; C. H. S. 73. Swede Johnson thru center for final tally, making C. H. S. final total 80.

Teamwork Did It.

In such a game, every man starred, or the locals could not have attained such heights. It also brought to light the excellent system of coaching the local lads are receiving from Coaches Reed and Flegel and the rest of the staff. The Red and Black's backfield attack was versatile and vicious. Quarterback "Swede" Johnson directed the plays well, and was a consistent ground gainer thru the line. Full-back Brown was a regular war horse for smashing thru center, while Bobby Wilson and Hody Johnson's long runs thrilled Clearfield's followers.

Mitcheltree's open field work was spectacular, and his fellow classman, Barney, also showed up well. The entire backfield handled the wet and slippery pigskin well, only three fumbles being credited to C. H. S.

Clearfield's line was a real wall on the defensive, and opened holes at will for High's backs. "Ham" Howe at end was a steady toiler from whistle to whistle, while Mohney and Sansone put up stellar games against heavier ends. Pearce and "Tiny" Witherow worked like Trojans at the tackle posts, smearing play after play. Coach Reed used two sets of guards, starting Moore and Ganev, and finishing with Betts and Maines on guard duty. These four guards certainly tore things up when the ball was put in play, and show promise of developing into one of Clearfield's greatest offensive resources, as each man plays an aggressive and hard-hitting game. Captain Witherow's playing at center stood out as strong for the Red and Black, whether snapping the ball or backing up the line.

Clarion
Mohney L. E. J. Elliot
Pearce L. T. Mills
Moore L. G. Blauser
Capt. Witherow C. Boyer
Ganev R. G. Shen
Witherow R. T. Arnold
Howe R. E. Elliot
"Swede" Johnson Q. McGill
Wilson L. H. Mortland
Hody Johnson R. H. Doverspike
Brown F. B. Mohney
Touchdowns: Brown 2, Hody Johnson 3, "Swede" Johnson 4, Wilson 2, Mitcheltree 1, Howe 1. Points after touchdown: Brown, end run; Howe, forward pass.

Substitutions: Sansone for Mohney, Mitcheltree for Wilson, Maines for Ganev, Betts for Moore, Barney for Wilson.

Referee, "Bill" Reading, Bucknell. Umpire, Pearce, Y. M. C. A. Head linesman, Shirey, U. of P. Time keepers, Kopp and Moody.

On the first play of the second quarter Bobby Wilson scored thru the line for C. H. S. Brown again dove thru tackle from the 5-yard line, making Clearfield's total 36, and scored another point by running back a fumbled pass. C. H. S. 37, C. S. N. S. 0.

In the third quarter "Swede" Johnson shot a direct pass to Howe for a touchdown. C. H. S. 43. Midget Mitcheltree got loose on an off-tackle play and whirled thru for C. H. S.'s eighth touchdown. Swede Johnson received kick-off and ran it back to Clarion 19 yard line as the third quarter ended. Score C. H. S. 49, C. S. N. S. 0. Clearfield's backs tore off 12 yards and Swede carried the ball across from the 6-yard line Hody Johnson, on a brilliant run of

GIANTS WIN FOURTH

Continued from Page One

who usually drops his hits in right field.

At this moment there popped into the mind of Miller Huggans the thought that the best play out of the difficulty would be to let Young walk, filling the bases, so that a forced out could be facilitated. He was willing to take a chance that Kelly, who had been weak in batting would continue weak. He ordered Bush to walk Young.

He warmed up his argument with a couple of warm words and then shouted to Huggans "let's play baseball." Huggans was insistent and repeated his signal to pass Young. Bush obeyed. His face showed his disgust. He threw four wide ones.

Then Kelly, batting right handed, appeared at the plate. Bush's first pitch was a ball. The next was a speedy curve. It cracked off Kelly's bat, passed into center field at a fast clip, scoring Frisch and Muesel. Huggans had guessed wrong. Bush had perhaps won a moral victory but all else was lost.

Still apparently bereft of his temper, Bush lopped a lazy throw up to the plate and King killed it, but the ball fell foul. He swung easier the next time and dropped a Texas leaguer, scoring Young.

For a time this afternoon, it seemed the Yanks had awakened from the spell of dumbness in which they tossed away every opportunity. They never appeared so much awake as the Giants did, who seemed every day in every way to grow better and better. But with Bush pitching as well as he did for two thirds of the distance, a little slowness now and then did not matter much at the time.

Facing the fast breaking curves of Nehf, the Yanks, as had been their custom, worked for one run at a time while the Giants stuck to their habit of hitting the ball where the could in the hope of getting a flock of runs. The Yankees were held to five hits by Nehf.

A single by Dugan, a sacrifice by Ruth and Pipp's single gave Bush a one run start in the first. The Giants took the lead in the second getting two runs on Muesel's single. Young walks. Kelly sacrificed and a single, by Cunningham. The Yanks tied the count at two all in the fifth. Ward walked and was sent around the circuit by singles hit by Scott and Bush. In the seventh the Yanks forged ahead. Muesel scratched a hit that Groh fumbled. He was sacrificed to second by Schang and given a trip to third on a wild pitch. Scott's sacrifice sent him home.

There were occasions for Babe Ruth to rise from his slum and gain heroic stature but he could not hit the

ENTERTAINED HIS RELATIVES

U. S. Consul Ben F. Chase, who has just returned home after more than a year spent in Messina, Italy, following his transfer from Norway, entertained his brothers and sisters at noon Sunday at the Dimeling and was host to his nephews and nieces at the same place for dinner last evening. Both functions were very much enjoyed by the participants.

To Keep a Window Up.

A simple and practical device for supporting windows that have no weights attached is made as follows: Take two double-pointed tacks and drive into the frame, one outside and one inside the window.

Drive them in only half way. Then insert a long nail and let the window rest on the nail. The tack next to the nail head should be a little higher than the other, so the nail will not slide out and should be on the inside of the window. By having two or three sets of these tacks on a frame you can have your window raised to as many different places.

The tack next to the nail head should be a little higher than the other, so the nail will not slide out and should be on the inside of the window. By having two or three sets of these tacks on a frame you can have your window raised to as many different places.

Supporting windows that have no weights attached is made as follows: Take two double-pointed tacks and drive into the frame, one outside and one inside the window.

Drive them in only half way. Then insert a long nail and let the window rest on the nail. The tack next to the nail head should be a little higher than the other, so the nail will not slide out and should be on the inside of the window. By having two or three sets of these tacks on a frame you can have your window raised to as many different places.

THE OLD HOME TOWN

By Stanley.

Look in the Glass. There is just one man in all the world that can do you dirt. Look in the glass and you will see him. Take a good square hold with that man. Down him, and hold him down till he promises to get up and behave himself. —Farm Life.

OYSTERS They're Here Every Day

And they're mighty good oysters. They come from the great Chesapeake Bay oyster grounds, where the finest oysters in the world are grown. You'll find that they are fat, juicy and succulent and just what you have been looking for after the long time you have been without them.

We have the big ones for frying and the smaller ones for stews. You'll find them all just what you've been looking for to tickle your palate.

THORN BROS.

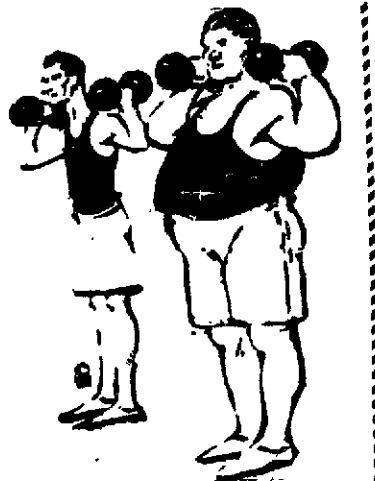

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for

Colds Headache
Toothache Lumbago
Earache Rheumatism
Neuralgia Pain, Pain
Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monoacetic-acideste of Salicylicacid.

Wealth from Street Dirt. Thousands of dollars are reclaimed each year by London companies who do nothing but rake over millions of tons of waste, gathered in every nook and corner of the great city of London. Tin, copper, zinc, lead and sometimes silver are found in large quantities. Occasionally things of extreme value are found, due to the carelessness of people.

Strategy.

"I saw the cutest little hat this afternoon." "Did you buy it?" "Not yet. I've got to pick out a more expensive one for my husband to refuse to buy so I can compromise on this one."—New York Sun.

The Greatest Historian of Them All

HOMER wove history into his songs. The Pharaohs carved it in stone. Julius Caesar painstakingly penned it on papyrus.

Today, history is written and given to you simultaneously with its occurrence. Every day, the important events of the world are summed up fully and comprehensively in your newspaper. You are able to keep abreast of history in its making.

And not the least important phase of modern history lies in the realm of industrial progress. You find this chronicled in the advertisements.

Advertising is a priceless boon to those who use it properly. It keeps their information up-to-date on the great variety of things that make life what it is today. It tells them of the thousand and one things they need in order to live profitable, happy and useful lives.

The consistent advertiser pays money to tell you about his wares. He **knows** they are good—he backs them with his money because he is confident that they will satisfy. For only merchandise that is consistently good can be consistently advertised.

Keep up with history. IT PAYS.

Read the advertisements.

TO DARKEN HAIR

APPLY SAGE TEA

A few applications of Sage Tea and Sulphur bring back its vigor, color, gloss and youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not awful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You don't dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. In moments all gray hairs have turned black, and, after another application of two, your hair becomes beautifully curly, glossy, soft and luxuriant.

HOW TO KEEP YOUR BABY WELL

A Weekly Talk To Mothers Issued Through The Babies' Prophylactic Clinic, Henry Phipps Institution, 7th and Lombard Streets,

SOME COMMON DISEASES OF CHILDHOOD

Colic: Colic comes from pressure of gas on the stomach and bowels. Watch your baby's diet. But meantime, get rid of the gas. Hold your baby over your shoulder with a bottle of warm water placed against his abdomen, and rub it gently. Try a pinch of bicarbonate of soda in warm water, or a little peppermint, or one or two small enemas of warm water.

Keep your baby warm. If the attack is long, place a water-bag at baby's feet and flannels rung out of hot water to his abdomen.

Stop the regular food for a few hours and give barley water instead.

Scurvy: Scurvy is a disease caused by feeding children the wrong food. It is accompanied by soreness, pains in the legs, tenderness of the gums which bleed easily and appear purplish, bleeding from the nose and bowels and dark blue spots on the legs and swollen knees and ankles.

The breast-fed baby, or those fed on raw milk rarely have this disease, but those babies who for a long time have been fed on artificial and sterilized foods.

Prevent and cure scurvy by giving your baby fresh fruit and vegetable juices in addition to milk.

Inter-trigo: This disease causes inflammation of the skins of the thighs and buttocks.

Change your baby's napkin as soon as it is soiled. Apply zinc ointment after washing the parts with boiled water and castile soap.

Composition of Dust.

Dust is made up of particles of unburned carbon from smoke, fragments of wool cotton and hair, living organisms and finely-divided mineral matter. All are constantly being cast into the air and they slip through cracks of houses and settle. After billions of particles have fallen, we say the floor is dusty.

For Junior Girl

Jersey and wool crepe are the favorite materials for the junior girl's new frocks. Navy serge is good, too, and is often made in suspender dresses with pleated skirts that have dimity or pongee blouses. Cross stitch or peasant embroidery is a favorite trim-

ODDS AND ENDS AND THINGS

By J. D. C.

Clearfield County hunters must remember that this county is closed to the hunting of wild turkey, quail and ringneck pheasants for this season. Ringnecks are beginning to get a foothold in this county and if the closed season could be extended beyond the seasons of 1923-24 by the coming Legislature, it would go a long way toward firmly establishing these beautiful game birds in our wooded hills.

Tests made to determine the respective pulling power of horses, men and elephants showed that two horses weighing 1600 pounds each, together pulled 3750 pounds, or 550 pounds more than their combined weight. One elephant, weighing 12,000 pounds pulled 8750 pounds, or 3250 pounds less than its weight. Fifty men, aggregating 7500 pounds, pulled 8750 pounds or just as much as the single elephant, but like the horses they pulled more than their own weight. 100 men pulled 12,000 pounds.

Three years ago, Mrs. Frank J. Schwing, or Miss Ethel Frinck, Pittsburgh, swallowed a needle two inches long. Two months later she was married. Charlotte, aged 22 months, her baby, began to cry yesterday and continued apparently without cause. Mrs. Schwing investigated the little girl almost repeated rubbing of a spot on her left shoulder and felt a foreign body under the skin. She probed and found the needle. The head of the needle had disappeared. The blunt end of the needle finally protruded and the mother withdrew it. The mother and daughter had never suffered any pain from the needle until the child felt it in her shoulder.

Courtes Anna Zarnekau, now living on Staten Island, a niece of the late Count Leo Tolstoy, says she lived for a time in a region of South Russia where the men were drinking too much vodka play a game called "koo koo". The two, three or four players each armed with a revolver, enter a large room at night and turn out the lights. They circle about the room and at intervals each man shouts "koo koo" and fires his revolver at where he guesses some other man is. After ten minutes the lights are turned on and those not killed or wounded are the winners.

The following interesting story of how the mechanism or component parts of the human anatomy is from the pen of Dr. Brice Belden, eminent New York.

All our organs and other parts of the body are composed of various kinds of living matter known as tissues.

The cells are packed together like bricks in a wall, making according to their nature, muscle or skin or bone, etc. For the cells of each kind of tissue are different from the others. For example, muscle and nerve cells are long and slender, blood cells compared to the people in a community, working to benefit each other.

NOW IS THE TIME TO ORDER YOUR 1923 CAR LICENSE

Harrisburg, Oct. 9.—"Now is the time to send in your application for 1923 motor vehicle registrations and licenses," was the keynote of a statement made today by Assistant State Highway Commissioner George H. Biles, who announced that shipment of license plates would be started by the Automobile Division on November 1. He particularly urged the co-operation of manufacturers, department stores, corporations and other organizations owning large fleets of motor vehicles to forward applications with out delay in order that there may be no interruption to their business on January 1.

Commissioner Biles said: "Pennsylvania's motor vehicle registration for 1923 will be enormous. Thousands of motorists will desire to use their cars on January First, and in order that they may not be deprived of doing so, we urge early applications for licenses, so that the Automobile Division may make delivery prior to that date. A forty-eight hour delivery cannot be guaranteed on applications received after December 25, 1922, to permit applicants to use tags January 1st.

"The issuance of plates and licenses will be greatly expedited by the observance of the following simple rules:

Answer correctly all questions on application blank.

Remittance must accompany application and should be in the form of check, draft or money order.

Avoid sending currency as there is always a probability of it being lost.

Use great care in designating the year for which the application is made.

Write name plainly. It is better to print it.

"If the applicant is registering the same vehicle used during 1922, information regarding horsepower, chassis weight, fee, manufacturer's number and motor number can be secured

er, and each one doing the kind of work for which he is best fitted.

The health of the body as a whole depends upon the good citizenship of each cell. A few anarchists in the stomach cause much trouble. Bone cells are flattened discs, while skin cells are like irregular blocks.

The living material of which the cells are composed is the most wonderful substance in the world. It is called protoplasm. Under the microscope it looks like a thick liquid with specks in it. The chemical changes which go on in this remarkable substance make it possible for you to see, to move and to think.

The cells of the body may prevent the building of a muscle, though their misbehavior may be in turn due to lazy muscle cells in the jaw which chew the food so that the stomach cannot digest it.

The good team work of our cells is due very largely to the directing influences of what are known as the ductless glands. Chemical messengers called hormones, are sent scurrying about the body when particular action is required on the part of certain cells. It is all a good deal like orchestration in music. The conductor, or master of harmony, appears to be the thyroid gland.

from the 1922 registration certificate."

For the information of applicants the Commissioner further stated that "motor vehicles of the passenger class, used only at intervals for carrying goods, wares or merchandise, or used in the carrying of the United States mail, are registered under passenger motor vehicle classification at forty cents per horsepower, the minimum fee being ten dollars.

Motor omnibuses—which include taxicabs, jitneys, etc., used for the transportation of passengers for hire or pay are defined as commercial vehicles, those with the chassis under two thousand pounds are registered under passenger classification at forty cents per horsepower with a minimum fee of fifteen dollars. Those with a chassis over two thousand pounds are registered under commercial vehicle classification according to chassis weight of vehicle."

It Isn't Worth It.

The only way to attain perfection is to follow all the advice you give to others.

G. J. BOOTH.

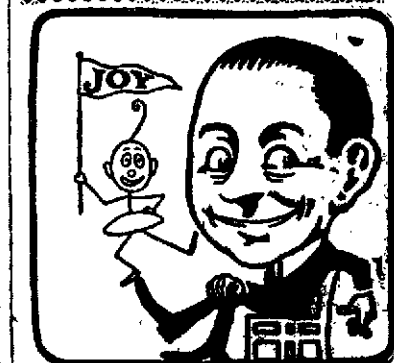

Booth, the tragedian (father of Edwin Booth), had a broken nose. A lady once remarked to him, "I like your acting, Mr. Booth, but to be frank with you, I can't quite get over your nose." "No wonder, madam," replied he. "The bridge is gone."

NEWS OF OUR NEIGHBORS

CURWENSVILLE

The American Legion band appeared on the diamond Saturday evening and rendered a delightful concert. The atmosphere was heavy and murky, but nevertheless a large crowd of people lined the sidewalks and stood for over an hour listening to the number of selections rendered. The band was booked for a concert at Philipsburg Sunday afternoon, but owing to the showery condition of the weather, did not venture out on the trip.

John P. Irvin tells us that while the lumber, roofing, etc., which he is handling had not been as brisk in the selling line as it ought to be at this time of the year, yet his sales so far this year have increased over the same length of time last season.

William Lines, a Curwensville boy, who has two years more to serve in the United States navy to complete his third term, is home on a ten-day furlough. He is now serving on the Secretary of Navy's yacht, with headquarters at Washington, D. C. At the expiration of his third term of service he will be retired on a pension amounting to \$87 per month. He will pass into the navy reserves for a term of sixteen years more, and after that period of time expires will receive a pension for the balance of his life at the rate of \$125.00 per month.

Half the width of Filbert street from the Central hotel to State street has been concreted. The reason why the entire width of the street was not carried along is that the State highway will not permit the laying of over sixteen feet in width at any one time. Two days more of good weather ought to complete the street. The stretch from the Pennsylvania railroad to the creek bridge is being left to the last bit of work, for a reason which we have been unable to fathom. It will be a great relief to everybody when the entire stretch from the river bridge to State streets is thrown open for public traffic.

The Curwensville Progress representative has been informed from a good source that Guy Forecy has purchased from Raymond Sipes his dwelling house on North Pine street, into which he expects to remove his family this week. The Sipes family will move to Clearfield some time about the middle of the week.

Douglas Dunsmore, according to latest reports, is now at Grove City and is playing on the football squad. "Dug" is a whirlwind at the game and will no doubt give as good an account of himself in every contest he enters as he did in the U. S. Marine service during the world war.

The High School football boys went to Indiana Saturday and took a whirl out of the Indiana Normal footballists. They were defeated but not discouraged. The score was 38 to 0. The pork and buckhead lads were a little too experienced and weighty for the home boys, and averaged five years older in age and twenty-five pounds heavier in weight. Olson, of the home team being out of commis-

sion on account of an injury received in the Williamsport game, left a weak spot as he was the bull-bunter of the bunch. The Curwensville squad, however, put up a spirited fight under the conditions, and the fans here have no kick coming because they lost out. What Curwensville wants now is a scrub team in order to help the High School fellows along in their practice stunts, and furnish trained substitutes when one of the regulars gets knocked out in battle. The writer does not know as much about the thrills and curves of football as he does about making moonshine cough syrup, therefore does not feel competent to write up the Indiana game and do the boys justice for their good work and showing as it should be done. But will say, let us all go to the field next Saturday when the Hollidaysburg game comes off, and root for the home team for all we are worth.

The gentle showers which visited this mountain section on Saturday and at intervals up to Monday morning were not of a sufficient quantity to raise the water in the streams, but did lay the deep dust on the country roads, making auto travel a little more of a pleasure. We have been told that all pastors of churches and Christian people of this county were requested to unite in an earnest prayer on Sunday that rain might be sent to relieve the needful where the scarcity of water predominates. Curwensville people are to be congratulated in having a water supply for all domestic purposes, but at many farms in surrounding territory water is being hauled as far as five miles for house use and for stock.

Anthony Pintowski, of the firm of Kujawa & Co., Clearfield, was a Curwensville visitor over Sunday, the guest of J. A. Kujawa.

Mr. Menzel, superintendent of the Clearfield tannery, formerly superintendent of Summit tannery of this place, Sundayed at the home of Mr. and Mrs. J. W. Sykes, North Thompson street.

Mr. and Mrs. Al Maurey drove to Indiana Saturday to witness the football game and also to visit their daughter, Miss Genevieve Maurey, who is a student at Indiana Normal.

Messrs. Emory Daub, Bob Wolf, Geo. Strickland and Sidney Korb were a bunch of rooters for the Curwensville pigskinners at Indiana Saturday.

Folly in Grieving.
One class of feelings can be extinguished only by the creation of another; one sentiment banished only by inviting the antagonism of another; one interest supplanted only by the stronger occupancy of another. So long as this is unperceived the overgrieving heart will seek in vain to discipline itself. Thinking of its sorrow as too much, instead of its sense of duty as too little, it fails to meet pointedly its own remedy.—James Martineau.

Woman Has "Some" Job.
The business man who thinks he has real problems is "kidding" himself. If he doubt his, he should consult his wife about problems that really are problems—planning meals, keeping up with the fashions, and running the home to suit as many different tastes as there are members of the family.—L. B.

Knowledge.
Knowledge is like the mystic ladder in the patriarch's dream. Its base rests on the primal earth; its crest is lost in the shadowy splendor of the empyrean; while the great writers who for traditional ages have held the chain of science and philosophy, of poetry and erudition, are the angels ascending and descending the sacred scale.

"Referendum" On Education Urged By Pres. Thomas

State College Head Asks
People To Approve Plan
To Raise \$2,000,000

Dr. John N. Thomas
President, Pennsylvania State College

The "referendum" on higher education in Pennsylvania was started just a year ago by President John M. Thomas, of the Pennsylvania State College, at State College, is being presented to the people of Pennsylvania this week. Committees in the 67 counties of the state are urging to all Pennsylvanians the opportunity to give their endorsement to the plan to better the state's institutions of higher learning by providing, through an emergency building fund of \$2,000,000, health, welfare, and residence units for its students.

The college decided upon the novel plan of an informal referendum of its problem to the people of the state and is seeking support from all classes of persons in a campaign for more adequate public support. In a statement on the "referendum," Dr. Thomas said:

"With but a single dormitory accommodating only 150 of the 3,000 men at the college, a hospital with only one bed for every 400 students, and no physical education or social buildings for other men or women, it has been decided that direct action by the citizens of the state will most quickly remedy the immediate needs of the college.

"The Pennsylvania State College, owned by the people of the state, should be a worthy apex of the public school system in this Commonwealth. Dignified with the name of University, it should provide this state with an institution such as that possessed by every state to the west and south of us.

"At the present time the resources of Penn State are far below the standard at other institutions. The following table shows what Penn State receives from the Legislature for maintenance for a year, compared with what other states, smaller and poorer than Pennsylvania, provide for the maintenance of their universities: Pennsylvania State College, \$1,912,500; Ohio State University, \$2,267,732; University of Illinois, \$2,511,545; University of Wisconsin, \$3,018,530; University of California, \$3,197,322; University of Minnesota, \$3,529,199.

Pectin and Gelatin.
Pectin is of vegetable origin, and is made up of carbon, hydrogen and oxygen. Gelatin is of animal origin and contains nitrogen in addition to the elements found in pectin.

When a girl who takes dictation marries her boss she becomes boss and he takes dictation.

Stockings.
The long stockings formerly worn were called hose; when knee-breeches were introduced the breeches were called upper stockings and the lower part rather socks or stockings. The knitted stocking originated in Italy; it was first brought to England by William Pater in 1564. Woven stockings were devised by William Lee, of St. Johns College, Cambridge, in 1590.

CAMPAIGN IS ON TO BREAK UP CHILD RUNNING TRAFFIC

By DALE VAN EVERY
(United Press Staff Correspondent.)
Harrisburg, Pa., Oct. 9.—A campaign to break up the notorious child-running traffic over State lines was under way today with the co-operation of the child welfare authorities of seven States.

Dr. Ellen Potter, head of the Children's Bureau of the Pennsylvania Department of Public Welfare, announced today that concerted measures had been agreed upon by Pennsylvania, New York, New Jersey, Delaware, Maryland, West Virginia and Ohio to control the unregulated shipment from one State to another.

At a conference of child welfare authorities of the seven States held here exchange of data disclosed the following:

The repeated escape of boys from an Ohio home for the feeble-minded was traced to a road contractor in Western Pennsylvania. The boys were found working on a road contract.

West Virginia reported that a Pittsburgh maternity hospital was placing large numbers of illegitimate babies in homes in West Virginia of such character that the infants were certain either to become poor citizens or public charges.

Pennsylvania authorities reported that maternity homes near the New York State line were placing infants in deplorable homes in northern tier counties of Pennsylvania. Some of these homes which were investigated were discovered to be infected with lice and disease.

The general fault disclosed by the conference was a lack of appropriate legislation which would make it possible to control the situation. Legislation will be recommended in each State to enable child welfare authorities to prevent the sending of children from one State to another when they are likely to become public charges. Measures will also be taken

TRINITY CHURCH EVENTS

A spirit of thanksgiving and praise marked all the gathering yesterday in Trinity church. Bible school had a fine session; new scholars were enrolled. Reports indicated fine advance over a year ago.

The music of the entire day was exceptionally strong and well interpreted. The choir gave finely rendered anthems. Mr. and Mrs. Harder singing impressively a suitable duet. Congregations listened with deepest attention to both morning and evening sermon. "Revive us again" ran through the morning message.

Gossip For Tonight's Tea Table

Mr. and Mrs. Charles Stevens of Race Street announce the birth of a son, Saturday, September 30th.

Mr. and Mrs. James Caldwell left for Pittsburgh where they will make their future home. Mrs. Caldwell was Melva Green before her recent marriage.

Miss Blanche Stewart is a typhoid fever patient at the home of her sister, Mrs. Robert Heberling at Tyrone. She has been ill for a couple of weeks and is getting along well.

Rev. H. L. Jacobs is today in Harrisburg attending a meeting of the trustees of the Methodist Home for Children.

Miss Iona Donovan and Miss Virginia Williams spent a very delightful week-end at Miss Williams' home in East End. They were pleasantly entertained Saturday evening by Miss Williams' friends and family.

Mr. and Mrs. R. E. Sands and children motored to Honesdale where they are visiting the former's parents and attending the Wayne county fair.

Mrs. Charles T. O'Brien, of South Fourth street, who was operated upon Friday evening last at the Clearfield hospital for obstruction of the bowels, is holding her own very nicely at this writing.

Law Sykes, off Ridgway, is a Clearfield visitor at present, having been called here by the serious illness of his mother, Mrs. Benjamin Sykes.

Blair Welch, a former well known local boy, now in the brick making business at Ridgway, Pa., spent Sunday with Clearfield relatives.

Mrs. W. E. Smith and two sons returned to their home at Altoona today, having spent the past week at the home of W. E. Phillips. They were accompanied home by Mrs. W. E. Phillips and daughter Margaret Helgen.

Mrs. James Thomas of East End was taken to McGirk's sanitarium at Philipsburg.

If It's lost, try a Want Ad.

Our Fabrics

New Fall Fabrics present many possibilities for the woman who sews. Wools, silks and ginghams were never more attractive than this fall assortment and an opportunity is offered the needle for many unique effects in autumn clothes.

Shur-on Glasses

Shur-on rimless glasses for formal dress.

SHELLTEX SHUR-ON rimmed spectacles for sportswear.

SHELLTEX SHUR-ON rimmed glasses for business.

Your glasses, too, should be appropriate.

You would never wear a sport suit to a formal occasion! Then why wear the same glasses for every occasion? It is the appropriateness of your glasses that gives you a becoming appearance. Rimless glasses are quite correct for formal and semi-formal engagements, but for work and play, rimmed spectacles are more practical.

We have appropriate styles for each occasion. We are equipped to fit glasses upon very short notice. Our stock of the well-known Shur-on styles contains frames and mountings that are both appropriate and comfortable; we recommend Shur-ons because we know they are right.

OUR MILK QUALITY UPHELD ALL THROUGH LONG DROUTH

Now that the drouth has been broken and the weather once more assumes its even tenor, we feel that we have achieved something in being able to tell you that all through the drouth the quality of our milk was as high as ever.

It has been a victory for our methods and has assured you the milk that came to your table was of the same high quality and had in it all the nutriment that Nature originally put there.

To drink our milk and drink plenty of it is a very good thing for you and every member of your family.

Clearfield Dairy Co.

WE MAKE WATCH REPAIRS RIGHT

There isn't a watch or a clock that goes out of our shop that goes out with the least thing the matter with it. Lots of folks have gotten the habit of dropping in and saying, "Fix up my watch" or "Fix this clock" and that's all there is to it.

In a short time they come in again and if we haven't succeeded in making the watch or clock run to our satisfaction, we say so frankly and ask the customer to wait a little longer.

One thing we must be sure of and that is that everything is all right before either leaves our repair rooms.

W. W. O'Brien

Complexion Aide

One of the things that milady is very particular about is her complexion and to have the complexion you'd like to have you must have the proper aids. We have creams for cleansing and creams for skin food. Then we have powders that will be just what you want.

Aughinbaugh's

Use Your Eyes But Use Them Right

If you'll use your eyes right, you'll find that they will be of better service to you in later years. You'll find that the strain that you put on them every day will be relieved by the use of proper glasses. I'm fitting proper glasses every day.

C. C. ARNOLD

HAVE YOU ARRANGED FOR YOUR TRUCK TO BE GONE OVER DURING THE WINTER?

Lots of truck owners are making these arrangements and you'll find that they are doing this to be ready for the time when their trucks will be called upon to start in the usual spring work.

Get in touch with us at once and you'll find that we can give you better service now than we can when the spring rush comes.
